Bread Care Tips

- ◆ Most of our breads will last 3-5 days. Made without preservatives, they will change their texture over time. Re-baking bread, even if for a short period of time, will re-crisp the crust and soften the crumb.
- ◆ Before you slice it, keep in paper bag at room temperature (plastic bags soften the crust). After slicing, keep the sliced side down on the board or in a bag at room temperature.
- ◆ We recommend that you don't refrigerate your bread. It alters the texture.
- ◆ To reheat: Remove from plastic bag and warm in oven at 350° for 10 minutes.
- ◆ If you are not using bread for 3 days, freeze (for up to 2 months) in an airtight plastic bag. Thaw in unopened plastic bag at room temperature so it can reabsorb moisture.
